CASIO[®]

Introduction & Contents

Important!

Your new cash register has been carefully tested before shipment to ensure proper operation. Safety devices eliminate worries about breakdowns resulting from operator errors or improper handling. In order to ensure years of trouble-free operation, however, the following points should be noted when handling the cash register.

Do not locate the cash register where it will be subjected to direct sunlight, high humidity, splashing with water or other liquids, or high temperature (such as near a heater).

Be sure to check the sticker on the side of the cash register to make sure that its voltage matches that of the power supply in the area.

Never operate the cash register while your hands are wet.

Use a soft, dry cloth to clean the exterior of the cash register. Never use benzene, thinner, or any other volatile agent.

Never try to open the cash register or attempt your own repairs. Take the cash register to your authorized CASIO dealer for repairs.

Welcome to CASIO Cash Register!

Congratulations upon your selection of a CASIO Electronic Cash Register, which is designed to provide years of reliable operation.

Operation of a CASIO cash register is simple enough to be mastered without special training.

Everything you need to know is included in this manual, so keep it on hand for reference.

Consult your CASIO dealer if you have any questions about points not specifically covered in this manual.

GUIDELINES LAID DOWN BY FCC RULES FOR USE OF THE UNIT IN THE U.S.A. (Not applicable to other areas)

WARNING: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Please keep all information for future reference.

The main plug on this equipment must be used to disconnect mains power.
Please ensure that the socket outlet is installed near the equipment and shall be easily accessible.

Introduction & Contents

Safety Precautions

- To use this product safely and correctly, read this manual thoroughly and operate as instructed.
After reading this guide, keep it close at hand for easy reference.
Please keep all informations for future reference.
- Always observe the warnings and cautions indicated on the product.

About the icons

In this guide various icons are used to highlight safe operation of this product and to prevent injury to the operator and other personnel and also to prevent damage to property and this product. The icons and definitions are given below.

Indicates that there is a risk of severe injury or death if used incorrectly.

Indicates that injury or damage may result if used incorrectly.

Icon examples

To bring attention to risks and possible damage, the following types of icons are used.

The \triangle symbol indicates that it includes some symbol for attracting attention (including warning). In this triangle the actual type of precautions to be taken (electric shock, in this case) is indicated.

The \otimes symbol indicates a prohibited action. In this symbol the actual type of prohibited actions (disassembly, in this case) will be indicated.

The \bullet symbol indicates a restriction. In this symbol the type of actual restriction (removal of the power plug from an outlet, in this case) is indicated.

Warning!

Handling the register

Should the register malfunction, start to emit smoke or a strange odor, or otherwise behave abnormally, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of fire and electric shock.

- Contact CASIO service representative.

Do not place containers of liquids near the register and do not allow any foreign matter to get into it. Should water or other foreign matter get into the register, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of shorting, fire and electric shock.

- Contact CASIO service representative.

Should you drop the register and damage it, immediately shut down the power and unplug the AC plug from the power outlet. Continued use creates the danger of shorting, fire and electric shock.

- Attempting to repair the register yourself is extremely dangerous. Contact CASIO service representative.

Never try to take the register apart or modify it in any way. High-voltage components inside the register create the danger of fire and electric shock.

- Contact CASIO service representative for all repair and maintenance.
-

⚠ Warning!

Power plug and AC outlet

Use only a proper AC electric outlet (100V~240V) . Use of an outlet with a different voltage from the rating creates the danger of malfunction, fire, and electric shock. Overloading an electric outlet creates the danger of overheating and fire.

Make sure the power plug is inserted as far as it will go. Loose plugs create the danger of electric shock, overheating, and fire.

- Do not use the register if the plug is damaged. Never connect to a power outlet that is loose.

Use a dry cloth to periodically wipe off any dust built up on the prongs of the plug. Humidity can cause poor insulation and create the danger of electric shock and fire if dust stays on the prongs.

Never use detergent to clean the power cord, especially the plug and jack.

Do not allow the power cord or plug to become damaged, and never try to modify them in any way. Continued use of a damaged power cord can cause deterioration of the insulation, exposure of internal wiring, and shorting, which creates the danger of electric shock and fire.

- Contact CASIO service representative whenever the power cord or plug requires repair or maintenance.
-

⚠ Caution!

Do not place the register on an unstable or uneven surface. Doing so can cause the register — especially when the drawer is open — to fall, creating the danger of malfunction, fire, and electric shock.

Do not place the register in the following areas.

- Areas where the register will be subject to large amounts of humidity or dust, or directly exposed to hot or cold air.
- Areas exposed to direct sunlight, in a close motor vehicle, or any other area subject to very high temperatures.

The above conditions can cause malfunction, which creates the danger of fire.

Do not overlay bend the power cord, do not allow it to be caught between desks or other furniture, and never place heavy objects on top of the power cord. Doing so can cause shorting or breaking of the power cord, creating the danger of fire and electric shock.

Be sure to grasp the plug when unplugging the power cord from the wall outlet. Pulling on the cord can damage it, break the wiring, or cause short, creating the danger of fire and electric shock.

Never touch the plug while your hands are wet. Doing so creates the danger of electric shock. Pulling on the cord can damage it, break the wiring, or cause short, creating the danger of fire and electric shock.

Never touch the printer head, platen and cutter.

Getting Started

This chapter shows how to setup the cash register and get it ready to operate. Please read this chapter even if you have used a cash register before.

1. Load the memory protection batteries and Paper rolls

Load the two memory protection batteries

1. Remove the printer cover.

printer cover

2. Remove the battery compartment cover.

battery compartment cover

3. Note the (+) and (-) markings in the battery compartment. Load a set of two new alkaline batteries so that their positive (+) and negative (-) ends are facing as indicated by the markings.

4. Replace the battery compartment cover.

5. Replace the printer cover.

No battery is included in the accessories.

Important!

These batteries protect information stored in your cash register's memory when there is a power failure or when you unplug the cash register. Be sure to install these batteries.

WARNING!

- Never try to recharge the batteries supplied with the unit.
- Do not expose batteries to direct heat, let them become shorted or try to take them apart.

Keep batteries out of the reach of small children. If your child should swallow a battery, consult a physician immediately.

2. Install receipt / journal paper.

Important!

Take away the head protection sheet from the printer and close the platen arm.

Caution! (in handling the thermal paper)

- Never touch the printer head and the platen.
- Unpack the thermal paper just before your use.
- Avoid heat/direct sunlight.
- Avoid dusty and humid places for storage.
- Do not scratch the paper.
- Do not keep the printed paper under the following circumstances:
High humidity and temperature/direct sunlight/contact with glue, thinner or a rubber eraser.

To install receipt paper

Step 1

Remove the printer cover.

Step 4

Put the leading end of the paper over the printer.

Step 2

Open the platen arm.

Step 5

Close the platen arm slowly until it locks steadily.

Step 3

Ensuring the paper is being fed from the bottom of the roll, lower the roll into the space behind the printer.

Complete

Replace the printer cover, passing the leading end of the paper through the cutter slot. Tear off the excess paper.

To install journal paper

Step 1

Remove the printer cover.

Step 2

Open the platen arm.

Step 3

Ensuring the paper is being fed from the bottom of the roll, lower the roll into the space behind the printer.

Step 4

Put the leading end of the paper over the printer.

Step 5

Close the platen arm slowly until it locks steadily.

Step 6

Remove the paper guide of the take-up reel.

Step 7

Slide the leading end of the paper into the groove on the spindle of the take-up reel and wind it onto the reel two or three turns.

Step 8

Replace the paper guide of the take-up reel.

Step 9

Place the take-up reel into place behind the printer, above the roll paper.

Step 10

Press the **FEED** key to take up any slack in the paper.

During machine installation, press the **FEED** key after power on.

Complete

Replace the printer cover.

3. Plug the cash register into a wall outlet.

Be sure to check the sticker (rating plate) on the side of the cash register to make sure that its voltage matches that of the power supply in your area.

4. Insert the mode key marked “PGM” into the mode switch.

5. Turn the mode switch to the “PGM” position.

When the display shows “Low battery”, load memory protection batteries (refer to page 10).

6. Set the date.

1. Enter current date in year - month - day order, and press the <X/FOR>

Example: June 15, 2008 ⇒ **0 8 0 6 1 5** X/FOR DATE TIME

2. Press <C> key.

Example: C

7. Set the time.

1. Enter current time in 24 hour system, and press the <X/FOR>

Example: 08:30 AM ⇒ **0 8 3 0** X/FOR DATE TIME (9:45 PM ⇒ **2 1 4 5** X/FOR DATE TIME)

2. Press <C> key.

Example: C

8. Tax table programming

Programming automatic tax calculation

Important!

After you program the tax calculations, you also have to individually specify which departments (page 31) and PLUs (page 33) are to be taxed.

For this cash register to be able to automatically register state sales tax, you must program its tax tables with tax calculation data from the tax table for your state. There are three tax tables (U. S.) and four tax tables (Canada) that you can program for automatic calculation of three/four separate sales taxes.

Programming for the U.S. tax tables procedure

There are two ways to set up the U.S. tax tables:

A) Input the desired tax rate / Changing the tax rate

B) Choose the tax rate from a preset tax table.

The procedure to setup the tax table is printed on the guidance receipt. First issue the guidance receipt by the [HELP] key and follow it to set the tax table.

```

ENTER NUMBER THEN
PRESS <HELP> KEY.

01:HOW TO PROGRAM
DATE AND TIME?

02:HOW TO PROGRAM
TAX TABLE? (US)

:
:
    
```

```

02:HOW TO PROGRAM
TAX TABLE?

-SELECT YOUR STATE AND
ENTER NUMBER THEN
PRESS <HELP> KEY.

0101:ALABAMA
0201:ALASKA
0301:ARIZONA
0401:ARKANSAS
0501:CALIFORNIA
:
:
5001:WISCONSIN
5101:WYOMING
    
```

```

PLEASE SELECT YOUR
DISTRICT NUMBER FOR TAX
TABLE 1 (XXXX) AND TABLE
2 (YYYY) FROM BELOW
TABLE.

1)TURN MODE KEY TO PGM.
2)3<SUBTOTAL>
3)0025<SUBTOTAL>
4)XXXX <CASH> KEY.
5)YYYY <CASH> KEY.
(IF YOU DO NOT NEED
TABLE 2, JUST SKIP
STEP 5)
6)<SUBTOTAL>
XXXX, YYYY IS DISTRICT
NUMBER

ALABAMA
0101: 4% State
0102: 4.5% State & Local
:
0111: 9 % State & Local
    
```

Follow these steps.

8. Tax table programming (continued)

Programming Canadian tax table

- 4 tax tables are used for the following purpose

Table 1: Used for the federal taxable items.

Table 2: Used for the provincial taxable items.

Table 3/4: Used for the provincial taxable items for different tax table.

Important!

Be sure you use the federal sales tax data with your provincial sales tax data. Even if your province use the same tax rate as another province, inputting the wrong data will result incorrect tax calculations.

9. Select printouts and watermark on receipt.

Turn the mode switch to “PGM”, enter <0>, <1> or <10>, and press the <CH>, <ST>

Example: issue receipt (with no watermark)	⇒	0	CH	<small>SUB TOTAL</small>
issue receipt (with watermark)	⇒	1	CH	<small>SUB TOTAL</small>
print journal	⇒	1 0	CH	<small>SUB TOTAL</small>

Note !

If you need journal and are sometimes required receipts by customers, select “issue receipt”. After business hours, issue the electronic journal report.

NOTE:

After completion of register programming, enter **6 2 0 0** and SUB
TOTAL in the PGM 7 mode (PGM mode ⇒ **7** SUB
TOTAL) to backup the program data into the internal non-volatile memory.

(This operation takes about 30 seconds.)

10. Department unit price programming

Maximum 6-digit unit price can be set to the department.

Refer to page-31.

Tax calculation status can be set to the department.

Refer to page-31.

11. PLU unit price programming

Maximum 6-digit unit price can be set to the PLU.

Refer to page-33.

Tax calculation status can be set to the PLU.

Refer to page-33.

12. Discount rate programming

0.01 - 99.99% rate can be set to the Discount key.

Refer to page-36.

Tax calculation status can be set to the Discount key.

Refer to page-36.

13. Issuing daily reset report

After business hours, issue daily reset report.

Refer to page-45.

14. Advanced operations and Setups

Introducing the Register

General guide

This part of the manual introduces you to the cash register and provides a general explanation of its various parts.

Roll paper

You can use the roll paper to print receipts and a journal (page 11 ~ 12).

Mode key

There are two types of mode keys: the program key (marked "PGM") and the operator key (marked "OP"). The program key can be used to set the mode switch to any position, while the operator key can select the REG and OFF position.

Operator key

Program key

Drawer

The drawer opens automatically whenever you finalize a registration and whenever you issue a read or reset report. The drawer will not open if it is locked with the drawer key.

Drawer lock / Drawer key

Use the drawer key to lock and unlock the drawer.

Drawer key

Magnetic plate

Use this plate for tacking the notes received from customer.

Mode switch

Use the mode keys to change the position of the mode switch and select the mode you want to use.

Mode Switch	Mode Name	Description
X2/Z2	Periodic sale read/reset	Used to obtain periodic sales reports without resetting total data or while resetting all total data.
Z	Daily sales reset	Used to obtain daily reports while resetting (clearing) all total data.
X	Daily sales read	Used to obtain daily reports without resetting (clearing) all total data.
REG	Register	Used for normal registration.
OFF	Stand-by	Cash register standing by.
RF	Refund	Used for registering refund transaction.
PGM	Program	Used for cash register programming.

How to set the Pop-up display

1. Lift the unit until it stops.

2. Rotate the unit.

Introducing the Register

Display

Display panel

Main display

Customer display

Displays

Main Display

(alphanumeric + numeric display)

Pop-up (customer) display

(numeric display)

Item registration (by department/PLU)

Repeat registration

Totalize operation

① Item count and subtotal

This part of the display shows item sold count and subtotal.

② Item / Key / Change descriptor

When you register an item or key, the item / key / change descriptor appears here. Mode descriptor is also displayed here.

③ Amount / Quantity

This part of the display shows monetary amounts. It also can be used to show the current time. (The current date is shown in the alphanumeric display.)

④ Taxable sales status indicators

When you register a taxable item, the corresponding indicator is lit.

⑤ Number of repeats

Anytime you perform a repeat registration (page 29, 34), the number of repeats appears here.

Note that only one digit is displayed for the number of repeats. This means that a "5" could mean 5, 15 or even 25 repeats.

⑥ Tendered amount

When the tender operation is made, the entered value appears here.

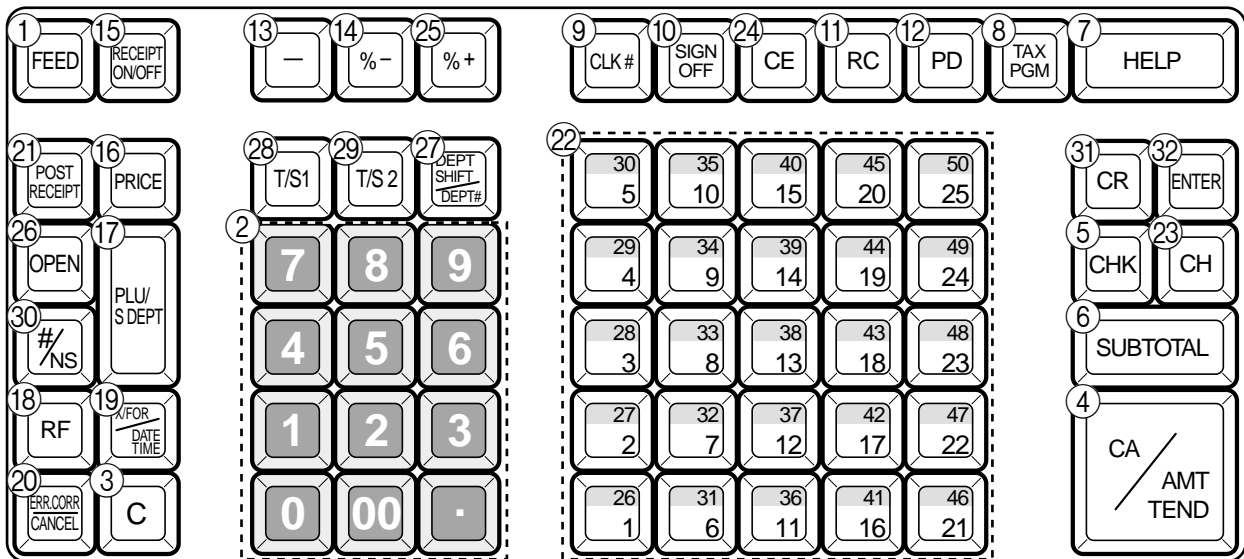

⑦ Total / Change indicators

When the TOTAL indicator is lit, the displayed value is monetary total or subtotal amount.

When the CHANGE indicator is lit, the displayed value is the change due.

Introducing the Register

Keyboard

- ① **Paper feed key** FEED
Hold this key down to feed paper from the printer.
- ② **Ten key pad** 0, 1, ~ 9, 00, .
Use these keys to input numbers.
- ③ **Clear key** C
Use this key to clear an entry that has not yet been registered.
- ④ **Cash amount tendered key** CA/AMT/TEND
Use this key to register a cash sale.
- ⑤ **Check key** CHK
Use this key to register a check tender.
- ⑥ **Subtotal key** SUB TOTAL
Use this key to display and print the current subtotal (includes add-on tax) amount.
- ⑦ **Help key** HELP
Use this key to look up the procedures to set date/time, tax table etc.
- ⑧ **Tax program key** TAX PGM
Use this key to set the tax status and tax table.
- ⑨ **Clerk number key** CLK#
Use this key to sign clerk on and off the register.
- ⑩ **Sign off key** SIGN OFF
Use this key to sign clerk off the register.
- ⑪ **Received on account key** RC
Use this key following a numeric entry to register money received for non-sale transactions.
- ⑫ **Paid out key** PD
Use this key following a numeric entry to register money paid out from the drawer.
- ⑬ **Reduction (minus) key** -
Use this key to input values for reduction.
- ⑭ **Discount key** %-
Use this key to register discounts.
- ⑮ **Receipt on/off key** RECEIPT ON/OFF
Use this key twice to change the status “receipt issue” or “no receipt.”
- ⑯ **Price key** PRICE
Use this key to register unit prices for subdepartment.
- ⑰ **PLU/Subdepartment key** PLU/SDEPT
Use this key to input PLU (subdepartment) numbers.
- ⑱ **Refund key** RF
Use this key to input refund amounts and void certain entries.
- ⑲ **Multiplication/For/Date/Time key** X/FOR DATE TIME
Use this key to input a quantity for a multiplication and registration of split sales of packaged items. Between transactions, this key displays the current time and date.
- ⑳ **Error correct / Cancel key** ERR CORR CANCEL
Use this key to correct registration errors and to cancel registration of entire transactions.
- ㉑ **Post receipt key** POST RECEIPT
Use this key to produce a post-finalization receipt.

② **Department keys** 1, 2, ~
Use these keys to register items to departments.

③ **Charge key** CH
Use this key to register a charge sale.

④ **Currency exchange key** CE
Use this key for calculating subtotal amounts or paying amount due in foreign currency.

⑤ **Premium key** %+
Use this key to register premiums.

⑥ **Open key** OPEN
Use this key to temporarily release a limitation on the number of digits that can be input for a unit price.

⑦ **Department no. / Department shift key** DEPT#
DEPT
SHIFT
Department no.: Use this key to input department numbers.
Department shift: Use this key to shift the department key number from 1 through 25 to 26 through 50.

1 ⇨ Dept 01 2 ⇨ Dept 02 :	DEPT# DEPT SHIFT 1 ⇨ Dept 26 DEPT# DEPT SHIFT 2 ⇨ Dept 27 :
---	---

⑧ **Tax shift 1 key** T/S1
Use this key without a numeric entry to change the Taxable 1 status of the next item.

⑨ **Tax shift 2 key** T/S2
Use this key without a numeric entry to change the Taxable 2 status of the next item.

⑩ **Non-add / No sale key** #
NS
Non-add key: Use this key to print reference number (to identify a personal check, credit card, etc.) during a transaction, use this key after some numerical entries.
No sale key: Use this key to open the drawer without registering anything.

⑪ **Credit key** CR
Use this key to register a credit sale.

⑫ **Enter key** ENTRY
(future use)

How to read the printouts

- The journal / receipts are records of all transactions and operations.
- The contents printed on receipts and journal are almost identical.
- You can choose the journal skip function.

If the journal skip function is selected, the cash register will print the total amount of each transaction, and the details of premium, discount and reduction operations only, without printing department and PLU item registrations on the journal.

- The following items can be skipped on receipts and journal.
 - Taxable status
 - Taxable amount
 - Item counter

*1 You can choose to print preset message and graphic at the top of the receipt or at the bottom of the receipt.

In the operation examples contained in this manual, the print samples are what would be produced if the roll paper is being used for receipts. They are not actual size. Actual receipts are 58 mm wide. Also, all sample receipts and journals are printout images.

How to use your cash register

The following describes the general procedure you should use in order to get the most out of your cash register.

BEFORE business hours...

- Check to make sure that the cash register is plugged in securely. Page 13
- Check to make sure there is enough paper left on the roll. Pages 11, 12
- Read the flash report to confirm that totals are all zero. Page 75
- Check the date and time. Page 28

DURING business hours...

- Register transactions. Page 29 -
- Periodically read totals. Page 74

AFTER business hours...

- Issue electronic journal report (if necessary). Page 75
- Reset the daily totals. Page 45, 76
- Remove the journal. Page 90
- Empty the cash drawer and leave it open. Page 21
- Take the cash and journal to the office.

Before business hours

Checking the time and date

You can show the time or date on the display of the cash register whenever there is no registration being made.

To display and clear the date/time

OPERATION	DISPLAY
 Date/time appears on the display.	
 Clears the date/time display.	

Preparing coins for change

You can use the following procedure to open the drawer without registering an item. This operation must be performed out of a sale. (You can use the **RC** key instead of this key. See page 41.)

Preparing and using discounts

This section describes how to prepare and register discounts.

Programming discounts

To program a rate to the **%-** key

Example: 10.0% ⇒ **1 0** %- 5.5% ⇒ **5 . 5**

12.34% ⇒ **1 2 . 3 4**

To program the tax calculation status to the **%-** key

Refer to page 31.

Registering discounts

The following example shows how you can use the **%-** key in various types of registration.

Discount for items and subtotals

OPERATION			RECEIPT		
Item 1	Dept. 1	\$5.00	5 00 1	1 DEPT001	T1 \$5.00
	Quantity	1	1 6 PLU/SDEPT	1 PLU0016	T2 \$10.00
	Taxable	(1) _{preset}	%-	5%	%- T2 -0.50
Item 2	PLU 16	(\$10.00) _{preset}	SUB TOTAL	ST	\$14.50
	Quantity	1	3 . 5 %-	3.5%	%- -0.51
	Taxable	(2) _{preset}	SUB TOTAL	TA1	\$5.00
Discount	Rate	(5%) _{preset}	1 5 00 CA/AMT/TEND	TX1	\$0.20
Subtotal discount	Rate	3.5%		TA2	\$9.50
	Taxable	Nontaxable		TX2	\$0.48
Payment	Cash	\$15.00		TL	\$ 14 . 67
				CASH	\$15.00
				CG	\$0.33

- You can manually input rates up to 4 digits long (0.01% to 99.99%).

Taxable status of the **%-** key

- Whenever you perform a discount operation on the last item registered, the tax calculation for discount amount is performed in accordance with the tax status programmed for that item.
- Whenever you perform a discount operation on a subtotal amount, the tax calculation for the subtotal amount is performed in accordance with the tax status programmed for the **%-** key.

Preparing and using reductions

This section describes how to prepare and register reductions.

Programming for reductions

You can use the **[-]** key to reduce single item or subtotal amounts.

To program preset reduction amount

To program the tax calculation status to the **[-]** key

Refer to page 31.

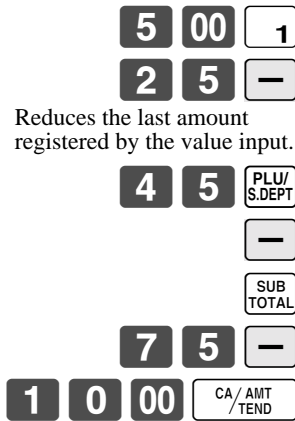

Registering reductions

The following examples show how you can use the **[-]** key in various types of registration.

Reduction for items and subtotal

	OPERATION	RECEIPT
Item 1	Dept. 1 \$5.00	<pre> 1 DEPT001 T1 \$5.00 - T1 -0.25 1 PLU0045 T1 \$6.00 - T1 -0.50 - T1 -0.75 TA1 \$10.25 TX1 \$0.41 TL \$9.91 CASH \$10.00 CG \$0.09 </pre>
	Quantity 1	
	Taxable (1) _{preset}	
Reduction	Amount \$0.25	
Item 2	PLU 45 (\$6.00) _{preset}	
	Quantity 1	
	Taxable (1) _{preset}	
Reduction	Amount (\$0.50) _{preset}	
Subtotal	Amount \$0.75	
Reduction	Taxable (No) _{preset}	
Payment	Cash \$10.00	

- You can manually input reduction values up to 7 digits long.
- If you want to subtract the reduction amount from the department or PLU totalizer, program “Net totaling.”

Registering credit and check payments

The following examples show how to register credits and payments by check.

Check

OPERATION			RECEIPT

*2 These items can be skipped by programming.

Using clerk functions

Enable clerk feature

Please follow the below procedure to enable clerk feature.

Assigning a clerk

You can assign clerks by using clerk number.

Clerk number key

Clerk sign on

Signing clerk 1 on:

1 →

Signing clerk 2 on:

2 →

Clerk number :
:

OPERATION

RECEIPT

```

* COMMERCIAL MESSAGE *
REG 03-06-2008 11:58
C01 0001 000123
1 DEPT01
    
```

Clerk name/machine No./consecutive No.

- If you do not want the clerk number to be shown on the display, press before entering the number.

Clerk sign off

Signing clerk off:
(except PGM mode)

OPERATION

- The current clerk is also signed off whenever you set the mode switch to OFF position.

Important!

- The error code "E008" appears on the display whenever you try to perform a registration, a read/reset operation without signing on.
- The signed on clerk is also identified on the receipt/journal.

Single item cash sales

A department key or PLU programmed with single item sale status finalizes the transaction as soon as it is registered.

The single item sales function can only be used for cash sales.

Example 1

OPERATION			RECEIPT											
	Dept. 1	\$1.00	1	00	1									
Item	Quantity	1	The transaction is immediately finalized.											
	Status	S.I.S												
Payment	Cash	\$1.00	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 60%;">1 DEPT001</td> <td style="width: 10%; text-align: right;">\$1.00</td> <td style="width: 30%;"></td> </tr> <tr> <td>TL</td> <td style="text-align: right;">\$ 1.00</td> <td></td> </tr> <tr> <td>CASH</td> <td style="text-align: right;">\$1.00</td> <td></td> </tr> </table>			1 DEPT001	\$1.00		TL	\$ 1.00		CASH	\$1.00

Currency exchange function

When <CE> key is pressed, a current subtotal including tax is converted directly into foreign currency and the result is displayed, and the subsequent finalization is handled using the foreign currency. The currency exchange function is released by finalizing a transaction, partial tender operation, receipt issuance, or by pressing <SUBTOTAL>.

Before using the currency exchange function, it is necessary to program the conversion rate.

Registering foreign currency

Full amount tender in foreign currency

* Pre-programmed exchange rate: ¥ 100 = \$0.9524

Important!

Tenders in a foreign currency can be registered using the **CA/AMT/TEND** and **CHK** only. Other finalize keys cannot be used.

OPERATION	DISPLAY	RECEIPT														
1 0 00 1 ← Enter the unit price and press the applicable department key.	 (Displays in \$)	<table border="1"> <tr> <td>1 DEPT001</td> <td>\$10.00</td> </tr> <tr> <td>1 DEPT002</td> <td>\$20.00</td> </tr> <tr> <td>TL</td> <td>- 30.00</td> </tr> <tr> <td>CE</td> <td></td> </tr> <tr> <td>CASH</td> <td>¥5,000</td> </tr> <tr> <td>CASH</td> <td>\$47.62</td> </tr> <tr> <td>CG</td> <td>\$17.62</td> </tr> </table>	1 DEPT001	\$10.00	1 DEPT002	\$20.00	TL	- 30.00	CE		CASH	¥5,000	CASH	\$47.62	CG	\$17.62
1 DEPT001	\$10.00															
1 DEPT002	\$20.00															
TL	- 30.00															
CE																
CASH	¥5,000															
CASH	\$47.62															
CG	\$17.62															
2 0 00 2 ← Enter the next unit price and press the applicable department key.	 (Displays in \$)															
CE SUB TOTAL ← Press CE and SUB TOTAL without entering a numeric value. This operation converts the subtotal (including tax) dollar value into yen by applying a pre-programmed exchange rate. The result is shown on the display and printed on the receipt/journal by programming.	 (Displays in ¥: 3,150)															
5 0 00 CE ← Enter the amount tendered in yen and press CE . This operation converts the entered yen amount into dollars by applying a pre-programmed exchange rate. The result is shown on the display. (5,000)	 (Displays in \$)															
CA/AMT/TEND ← Press to finalize the transaction. Note that you do not need to reenter the dollar amount. The register automatically calculates the change amount due in dollars and shows it on the display, receipts and journal.	 (Displays in \$)															

Partial tender in a foreign currency

* Pre-programmed exchange rate: ¥ 100 = \$0.9524

Important!

Partial tender in a foreign currency can be registered using **CA/AMT/TEND** and **CHK** only. Other finalization keys cannot be used, but the remaining tender can be finalized using any finalize key.

OPERATION

DISPLAY

Programming department / PLU descriptors and preset messages in the list

In this chapter, the procedures to choose department / PLU descriptors and preset messages from the preset list are described. Read help receipt, so that you can set the descriptors and messages easily.

How to choose and set the department / PLU descriptors in the list

1. Turn to the PGM mode.
2. Enter **0 7** and press the **HELP** key.
3. Select the item name and follow these steps in the list.

How to choose and set the preset receipt message and graphic logo in the list

1. Turn to the PGM mode.
2. Enter **0 8** and press the **HELP** key. (Programming procedure and Preset message list is issued.)
3. Follow these steps in the list.

Preset message and graphic print sample

Character manual input

This chapter shows the procedures to program department / PLU descriptors, store messages, key descriptors, report title, total descriptor (such as gross total, net total...) and clerk name.

The characters you entered by the character keyboard or multi-tapping keyboard, can be programmed.

The “Entering characters” section shows how to enter characters, and the “Programming descriptors and messages by entering characters” shows how to program the entered characters to each memory.

Entering characters

In this section, the method to enter descriptors or messages (characters) to the cash register during programming is described.

Characters are specified by character keyboard or by multi tapping method. In the first half of this section, the usage of character keyboard is described. In the latter half, inputting method by multi tapping is described.

Using character keyboard

① **Alphabet keys**

Used input to characters.

② **Double size letter key**

Specifies that the next characters you input to double size characters. After completion of inputting double size character, press this key for normal size character.

③ **Space key**

Set a space by depression.

④ **Clear key**

Clears all input characters in the programming.

⑤ **Delete key**

Clears the last input character, much like a back space key.

Example:

Input “ **A** p p l e J u i c e ”,
 enter <DBL><A> <DBL><Shift><p> <p> <l> <e> <Space> <CAPS><J> <Shift><u> <i> <c> <e> .

⑥ **Program end key**

Terminates the character programming.

⑦ **Character enter key**

Registers the programmed characters.

⑧ **CAPS key**

Pressing this key shifts the character from the lowercase letter to upper case letter.

⑨ **Shift key**

Pressing this key shifts the character from the uppercase letter to lower case letter.

Entering characters by multi tapping

When you enter characters by this method, you need to press each key repeatedly until the desired character appears.

Multi tapping keyboard

① Alphabet keys

Used input to characters.

Key	Text
7	7 @ - / : ! ? " () * # + , ^ ; < = > \$ ¥ % & [] ' { } . " . \ _ ' ¢ x ÷ ï € § (space) □
8	A B C a b c 8 Ä Å Æ Á Â Ã Ç â ä à á æ á ã ç □
9	D E F d e f 9 ð É Ê Ë È Æ é ê ë è f
4	G H I g h i 4 Í Î Ï Ì Ñ ï í 1
5	J K L j k l 5
6	M N O m n o 6 Ñ Ò ø Ó Ô Õ Ö ñ ô ö ò φ ó õ □
1	P Q R S p q r s 1 P Þ ß
2	T U V t u v 2 Ú Û Ü Û Ü Û ù ú μ
3	W X Y Z w x y z 3 Ÿ ŷ ŷ
0	0
00	(Right cursor)
.	(Delete)

② Double size letter key

Specifies that the next characters you input to double size characters. After completion of inputting double size character, press this key for normal size character.

③ Space key

Set a space by depression.

④ Clear key

Clears all input characters in the programming.

⑤ Delete key

Clears the last input character, much like a back space key.

⑥ Program end key

Terminates the character programming.

⑦ Character enter key

Registers the programmed characters.

⑧ Right cursor key

Move the cursor to the right by one to enter a character on the same tapping key.

Example:

Input “ C L A S S a ” ,
enter “ <DBL> 8 8 8 5 5 5 <DBL> 8 1 1 1 1 00 1 1 1 1 <Space> 8 8 8 8 ” .

Programming descriptors and messages by entering characters

The following descriptors and messages can be programmed;

- Report descriptor (such as gross total, net total, cash in drawer...)
- Grand total
- Special character (such as mode symbol, taxable symbol...)
- Read/reset report title
- Clerk name
- PLU item descriptor
- Messages (Logo, commercial and bottom message)
- Function key descriptor
- Department key descriptor

Printing read/reset reports

- Daily sales read report (“X” mode)**

You can print read reports at any time during the business day without affecting the data stored in the cash register's memory.

- Daily sales reset report (“Z” mode)**

You should print reset reports at the end of the business day.

Important!

- The reset operation issues a report and also clears all sales data from the cash register's memory.
- Be sure to perform the reset operations at the end of each business day. Otherwise, you will not be able to distinguish between the sales data for different dates.

To print the individual department, PLU read report

This report shows sales for specific departments or PLUs.

OPERATION	DISPLAY
-----------	---------

1. Turn to X mode.

2. Specify a department / PLU .

- Specifying a department
, , ...
- Specifying a PLU
 , ...

3. Press <ST> to exit this report.

REPORT

X	INDIVIDUAL	Read symbol/report title
DEPT001	38	Department Name/No. of items
8.13%	\$257.53	Sales ratio/amount
PLU0001	17	PLU Name/No. of items
0.53%	\$17.00	Sales ratio/PLU amount
#0001		PLU code

TL	88.61	Total No. of items
	\$516.10	Total amount

To print daily read reports (except electronic journal)

You can select the appropriate report shown in the display.

OPERATION

1. Turn to X mode.

DISPLAY

2. Select report you want to get by the <RC> key.

3. Press <CASH> to print report. *1

*1 If money declaration is necessary, count how much cash is in the drawer and input this amount (up to 10 digits) and press <#> key.

The cash register will automatically compare the input with the cash in drawer in the memory and print the difference between these two amounts.

Note that if money declaration is required by programming, you cannot skip this procedure.

To print electronic journal read report

OPERATION

1. Turn to X mode.
2. Select electronic journal report by the <RC> key.
3. Press <CASH> key, enter start date and/or consecutive no. and press <CASH> key.

Advanced Operations and Setups

To print daily reset reports

You can select the appropriate report shown in the display.

OPERATION

1. Turn to Z mode.

DISPLAY

2. Select report you want to get by the <RC> key.

3. Press <CASH> to print report. *1

*1 If money declaration is necessary, count how much cash is in the drawer and input this amount (up to 10 digits) and press <#> key.

The cash register will automatically compare the input with the cash in drawer in the memory and print the difference between these two amounts.

Note that if money declaration is required by programming, you cannot skip this procedure.

Advanced Operations and Setups

• Periodic sales read report (“X2” mode)

You can print read reports at any time during the business day without affecting the data stored in the cash register's memory.

• Periodic sales reset report (“Z2” mode)

You should print reset reports at the end of the business day.

To print the periodic 1/2 sales read/reset reports

These reports show sales breakdowns of sales by any two kinds of period you want.

OPERATION

DISPLAY

1. Turn to X2/Z2 mode.

2. Select report you want to get by the <RC> key.

3. Press <CASH> to print report.

Troubleshooting

This section describes what to do when you have problems with operation.

When an error occurs

Errors are indicated by an error codes. When this happens, you can usually find out what the problem is as illustrated below.

Press **C** and check the appropriate section of this manual for the operation you want to perform.

Error code	Message	Meaning	Action
E001	Wrong mode	Mode switch position changed before finalization.	Return the mode switch to its original setting and finalize the operation.
E003	Wrong operator	The signed on clerk differs from the clerk performed the tracking check registration.	Input correct check number or assign the proper clerk number.
E004	Error INIT/FC	Initialization or unit lock clear operation in progress.	Complete operation.
E008	Please sign on	Registration without entering a clerk number.	Enter a clerk number.
E010	Close the drawer	The drawer is left open longer than the program time (drawer open alarm).	Close the drawer.
E011	Close the drawer	Attempt to register while the cash drawer is open.	Shut the cash drawer.
E016	Change back to REG mode	Two consecutive transactions attempted in the refund mode.	Switch to another mode and then back to the RF mode for the next transaction.
E017	Enter CHK/TBL number	Attempt made to register an item without inputting a check number.	Input a check number.
E018	Enter Table number	Attempt made to register an item without inputting a table number.	Input a table number.
E019	Enter number of customers	Finalize operation attempted without entering the number of customer.	Enter the number of customer.
E021	No DEPT Link	No department linked PLU is registered.	Correct the program.
E026	Enter condiment/preparation PLU	No condiment/preparation PLU is registered.	Register condiment/preparation PLU.
E029	In the tender operation	Item registration is prohibited, while partial tender.	Finalize the transaction.
E031	Press ST key	Finalization of a transaction attempted without confirming the subtotal.	Press <SUBTOTAL>.
E033	Enter tendered amount	Finalize operation attempted without entering amount tender.	Enter the amount tendered.
E035	Change amount exceeds limit	Change amount exceeds preset limit.	Input amount tendered again.
E036	Remove money from the drawer	Contents of the drawer exceed programmed limit.	Perform payout operation.
E037	Digit or amount limitation over	High amount lock out/low digit lock out error	Enter correct amount.
E038	Perform money declaration	Read/reset operation without declaring cash in drawer. This error appears only when this function is activated.	Perform money declaration.
E040	Issue guest receipt	Attempt to register a new transaction without issuing a guest receipt.	Issue a guest receipt.
E046	REG buffer full	Registration buffer full.	Finalize the transaction.
E049	CHECK memory full	Check tracking index memory full.	Finalize and close the check number currently used.
E050	DETAIL memory full	Check tracking detail memory full.	Finalize and close the check number currently used.
E051	CHK/TBL No. is occupied	Attempt to made use <New Check> to open a new check using a number that is already used for an existing check in check tracking memory.	Finalize and close the check that is currently under the number that you want to use or use a different check number.
E053	CHK/TBL No. is not opened	Attempt made to use <Old Check> reopen a new check using a number that is not used for an existing check in check tracking memory.	Use the correct check number (if you want to reopen a check that already exists in check tracking memory) or use <New Check> to open a new check.
E075	Negative balance cannot be finalized	Attempt to finalize a transaction when balance is less than or equal to zero.	Register item(s) until the balance becomes positive amount.

Error code	Message	Meaning	Action
E101	PLU maintenance file full. Press <#2> to exit	Scanning PLU direct maintenance/batch maintenance file becomes full.	Terminate the maintenance.
E103	PLU Code is not exist. Input the PLU Code	PLU code is not existed in the file.	Enter proper PLU code.
E105	PLU file full	Scanning PLU file full	Modify the designated item.
E106	Item exists in the PLU FILE	The designated item has already existed in the scanning PLU file.	
E112	Close the journal platen arm	The journal platen arm is opened.	Close the journal platen arm.
E114	Close the receipt platen arm	The receipt platen arm is opened.	Close the receipt platen arm.
E139	Negative balance is not allowed	Attempt to register <-> or <CPN> when the balance becomes negative.	Enter proper minus/coupon amount.
E146	Arrangement file full	Arrangement file is full.	Set the arrangement properly.
E200	Insert RAC	RAC is set.	Set RAC.
E201	Illegal Format	Illegally formatted RAC	Format the RAC.
E202	File not found	The designated file is not found in the RAC.	Enter proper file name.
E205	File already exist.	Can not write, because designated file has already been in the RAC.	Check the operation and retry.

When the * sign appears on the display

- Electronic journal memory near-end and memory full:

Important!

- When the register shows this sign, issue electronic journal read report (if necessary) and reset this memory immediately.

— Electronic journal memory near end memory full symbol

When the cash drawer does not open!

In case of power failure or the machine is in malfunction, the cash drawer does not open automatically. Even in these cases, you can open the cash drawer by pulling drawer release lever (see below).

Important!

The drawer will not open, if it is locked with a drawer lock key.

When the register does not operate at all

Perform the following check whenever the cash register enter an error condition as soon as you switch it on. The results of this check are required by service personnel, so be sure to perform this check before you contact a CASIO representative for servicing.

Clearing a machine lock up

If you make a mistake in operation, the cash register may lock up to avoid damage to programs and preset data. Should it happens, you can use the following procedure to clear the lock up without losing any data.

- 1 Power off the register.
- 2 Insert the PGM key in the mode switch.
- 3 Press down **FEED**, and turn the mode switch to PGM mode.
- 4 The display shows 0.00, then release **FEED**.
- 5 Press **SUB/TOTAL**, then issue a receipt.

In case of power failure

If the power supply to the cash register is cut by a power failure or any other reason, simply wait for power to be restored. The details of any ongoing transaction as well as all sales data in memory are protected by the memory backup batteries. (This is the reason to install the batteries.)

- Power failure during a registration
The subtotal for items registered up to the power failure is retained in memory. You will be able to continue with the registration when power is restored.
- Power failure during printing a read / reset report
The data already printed before the power failure is retained in memory. You will be able to issue a report when power is restored.
- Power failure during printing of a receipt / journal
Printing will resume after power is restored. A line that was being printed when the power failure occurred is printed in full.
- Other
The power failure symbol is printed and any item that was being printed when the power failure occurred is reprinted in full.

Important!

Once receipt / journal printing or printing of a report starts, it can be stopped only by interruption of power to the cash register.

When the L sign appears on the display

About the low battery indicator...

The following shows the low battery indicator.

If this indicator appears when you switch the cash register on, it can mean one of three things:

- No memory backup batteries are loaded in the cash register.
- The power of the batteries loaded in the unit is below a certain level.
- The batteries loaded in the unit are dead.

Important!

Whenever the low battery indicator appears on the display, load a set of two new batteries as soon as possible. If there is a power failure or you unplug the cash register when this indicator appears, you will lose all of your sales data and settings.

**BE SURE TO KEEP THE POWER CORD OF THE CASH REGISTER
PLUGGED IN WHENEVER YOU REPLACE THE BATTERIES.**

To replace journal paper

Step 1

Set the mode switch to the REG position and remove the printer cover.

Step 2

Press **FEED** to feed about 20 cm of paper.

Step 6

Slide the printed journal from the take-up reel.

Step 3

Cut the journal paper at the point where nothing is printed.

Step 7

Open the platen arm.

Step 4

Remove the journal take-up reel from its holder.

Step 8

Remove the old paper roll from the cash register.

Step 5

Remove the paper guide from the take-up reel.

Step 9

Load new paper.

Go to the step 3 described on page 12 of this manual.

To replace receipt paper

Step 1

Set the mode switch to the REG position and remove the printer cover.

Step 2

Open the platen arm.

Step 3

Remove the old paper roll from the cash register.

Step 4

Load new paper.

Go to the step 3 described on page 11 of this manual.

Options

P-5880T roll paper

WT-89 wetproof cover

The optional wetproof cover protects the keyboard from moisture damage.

Consult your CASIO dealer for details.

Specifications

Input method

Entry: 10-key system, buffer memory 8 keys (2-key roll over)
 Department: Full key system

Display

Main: Amount 10 digits (zero suppression); No. of repeats, total, change, transaction indicator
 Descriptor 16 digits × 2 lines; item descriptor, No. of items, mode, clerk name
 Customer: Amount 8 digits (zero suppression)

Printer

Receipt / Journal: Thermal alpha-numeric system 24 digits
 Receipt: Store name or slogan is printed automatically / with receipt on/off key
 Journal: Automatic take up roll winding
 Paper roll: 58 (W) × 80 (D) mm
 Paper thickness: 0.06 ~ 0.085 mm
 Paper feed: Separate for receipt and journal
 Print speed: About 14 l/s

Listing capacity

Amount: 99999999
 Quantity: 9999,999
 Tended amount: 9999999999
 Percent: 99.99
 Tax rate: 9999.9999
 Numbers: 9999999999999999

Chronological data

Date print: Automatic date printout on receipt or journal, automatic calendar
 Time print: Automatic time printout on receipt or journal, 24-hour system/12-hour system

Alarm

Key catch tone, error alarm, sentinel alarm

Memory protection battery

The effective service life of memory protection batteries (two new size AA alkaline batteries) is approximately one year from installation into the machine.

Power supply/power consumption

See the rating plate.

Operation temperature

0°C ~ 40°C (32°F ~ 104°F)

Humidity

10 ~ 90%

LIMITED WARRANTY: ELECTRONIC CASH REGISTERS

This product, except the battery, is warranted by Casio to the original purchaser to be free from defects in material and workmanship under normal use for a period, from the date of purchase, of one year for parts and 90 days for labor. For one year, upon proof of purchase, the product will be repaired or replaced (with the same or a similar model) at Casio's option, at a Casio Authorized Service Center without charge for parts. Labor will be provided without charge for 90 days. The terminal resident software and programmable software, if any, included with this product or any programmable software which may be licensed by Casio or one of its authorized dealers, is warranted by Casio to the original licensee for a period of ninety (90) days from the date of license to conform substantially to published specifications and documentation provided it is used with the Casio hardware and software for which it is designed.

For a period of ninety (90) days, upon proof of license, Casio will, at its option, replace defective terminal resident software or programmable software, correct significant program errors, or refund the license fee for such software. Significant program errors will be significant deviations from written documentation or specifications. These are your sole remedies for any breach of warranty. In no event will Casio's liability exceed the license fee, if any, for such software. This warranty will not apply if the product has been misused, abused, or altered.

Without limiting the foregoing, battery leakage, bending of the unit, a broken display tube, and any cracks or breaks in the display will be presumed to have resulted from misuse or abuse. To obtain warranty service you must take or ship the product, freight prepaid, with a copy of the sales receipt or other proof of purchase and the date of purchase, to a Casio Authorized Service Center. Due to the possibility of damage or loss, it is recommended when shipping the product to a Casio Authorized Service Center that you package the product securely and ship it insured. CASIO HEREBY EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. NO RESPONSIBILITY IS ASSUMED FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES RESULTING FROM MATHEMATICAL INACCURACY OF THE PRODUCT OR LOSS OF STORED DATA. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. This warranty gives you specific rights, and you may also have other rights which vary from state to state.
